Student Helper Web App

Your Ultimate Academic Assistant

By Marion

Problem

- Students often struggle to:
- - Keep track of assignments, exams, and reminders
- - Stay organized across multiple subjects
- - Find a simple, distraction-free tool for planning their studies

Solution

- Student Helper App is a lightweight, user-friendly web app that helps students:
- - Track reminders and due dates
- - Manage subjects and notes
- - Stay productive and focused

Product Demo

- Features:
- - Home Dashboard
- - Reminders System
- - Subject Manager
- - Calendar View (coming soon)
- *Add a screenshot of your current UI*

Market Opportunity

- - 1.3+ billion students globally
- - Rising demand for digital productivity tools in education
- - Opportunity to expand into high school, college, and even exam-prep segments

Business Model

- Future monetization ideas:
- - Freemium: Free basic version, premium tools for productivity
- - Ad-free version for students
- - Institutional licensing for schools or colleges

Competitive Advantage

- Unlike bulky apps or generic planners, Student Helper is:
- - Simple and intuitive
- - Built with student workflows in mind
- - Customizable for different education levels

Go-to-Market Strategy

- - Launch MVP to student communities
- - Get feedback from beta users
- - Partner with schools and learning platforms
- - Promote through student-focused channels

Team

- Marion — Developer, Designer, and Visionary
- *Passionate about education, tech, and empowering students.*

Ask / Closing

- - Seeking mentorship, feedback, and potential funding
- - Looking to grow into a full-featured tool used by schools worldwide

- Let's empower students together!
